Hi Dave-

Since I haven't heard anything from you regarding this case, should I assume that it has been resolved? Also, I have heard from the ADA in my Pittsfield District Court case also scheduled for September 30th and it is still go, so I will be unavailable for you in Orange as I will be in Pittsfield.

Hi Dave-

I received your summons for the [REDACTED] trial scheduled for September 30, 2010 and I have a few questions/comments. First, the Drug Certificate numbers listed on the summons are [REDACTED]. The defendant listed on the first number [REDACTED] is listed as [REDACTED] but I was not the chemist that preformed the analysis on this sample (Rebecca Pontes is). Also submitted the same day by the Athol police were [REDACTED] chemist = (Rebecca). As for the second number ([REDACTED]), the lab does not have a submission for that number (or any number above 0600 for that matter). I looked up submission [REDACTED] thinking that it might be a typo, and, although I am the chemist for that number, the defendant was listed as Jordan Stone (as well as [REDACTED]). Finally I looked up the defendants name [REDACTED] and found one other submission that had that name on it which I had analyzed [REDACTED]. With all this stated, would you mind clearing up for me which drug lab certificate numbers are actually involved with this case?

Second, I may have a conflict on September 30 as I am suppose to be in Pittsfield District Court that day, though it is early and things may change.

Thanks.

-Sonja
